The *Intensive Stuttering Clinic* (ISC) is an internationally recognized stuttering treatment program. The program began in 2001.

**Executive Director: Michael Blomgren, Ph.D., CCC-SLP.** Dr. Blomgren is a speech-language pathologist and a research scientist and has numerous publications and many national and international presentations on stuttering and speech motor control.

**Clinical Director: Amy Krantz, M.S., CCC-SLP.** Ms. Krantz is a licensed speech-language pathologist and directs the clinical services during the ISC. She has specialized in stuttering therapy since 2006 and has been the ISC Clinical Director since 2012.

### Treatment Structure

- We offer an evidence-based approach to stuttering management that is based on years of laboratory and clinical research.
- The *Intensive Stuttering Clinic* involves approximately 60 hours of direct treatment. The clinic runs from 9 a.m. to 4:00 p.m., Monday through Friday for two weeks. Therapy includes a combination of individual and group sessions.

### Costs

- \$1500 for the 2-week clinic. Program fee includes 60 hours of treatment, program manual, and all other supporting treatment materials. A \$300 deposit is required upon registration and the remaining \$1200 is due on the first day of the clinic. Payment plans are also available.
- A small number of fee reduction scholarships are available. All scholarships are based on financial need. Please inquire about availability.
- Housing and food costs are not included in the program fee. However, housing and food services are available on or near campus. We will be happy to work with you to arrange housing.

### Philosophy

Stuttering is a multidimensional disorder and is best treated with a multidimensional therapy approach. The objectives of the *Intensive Stuttering Clinic* are:

- Learn new speech motor skills
- Improve control over production of fluent speech
- Practice learned methods in real-life situations
- Reduce severity of stuttering moments
- Foster a better understanding and healthy acceptance of stuttering
- Increase self-confidence
- Promote a proactive attitude toward improving speech production

- Each clinic is limited to 8 individuals
