## **High Food Security**

Households had no problems, or anxiety about, consistently accessing adequate food

## **Marginal Food Security**

Households had problems or anxiety at times about accessing adequate food, but the quality, variety, and quantity of their food were not substantially reduced

## Low Food Security

Households reduced the quality, variety, and desirability of their diets, but the quantity of food intake and normal eating patterns were not substantially disrupted

Very Low Food Security

At times during the year, eating patterns of one or more household members were disrupted and food intake reduced because the household lacked money or other resources for food.
